

4

Types Of Content Developers Actually Want

1

- 1 < **Documentation and tutorials** />
- 2
- 3 Succinctly identifies how the product
- 4 solves the developer's problem.
- 5

- 1 < **Code and project samples** />
- 2

- 3 Helps devs get acclimated and start
- 4 testing features out for themselves.
- 5

2

3

- 1 < **Trainings and meetups** />
- 2
- 3 Developers trust the opinions and
- 4 recommendations of other developers
- 5 more than brands.

- 1 < **Developer diaries** />
- 2

- 3 Dev-to-dev sharing that authentically
- 4 discusses how a product or solution
- 5 worked.
